

Welcome and thank you for choosing Army AL&T Magazine as your information source.

In this Army Science and Technology issue, learn how the S&T community is doing its fair share to live up to its charter.

Our lead article gives you an overview of the Army S&T Program and the S&T strategy moving forward.

Discover what factors determine if a technology transitions from the laboratory to Soldiers in an article entitled: *Actively Managing the Technology Transition to Acquisition Process*.

Likewise, learn about the important technological developments coming out of the Army's University Affiliated Research Center and University Centers.

Another article discusses a prototype robotic dog that can sniff out hidden explosives.

Other articles highlight S&T accomplishments ranging from biotechnology developments to hybrid electric technology and flexible display panels.

In the balance of this edition, you'll find a wide array of information important to the AL&T Workforce and how we "Design-Develop-Deliver-Dominate- to Make Soldiers Strong."

We encourage you to take the time to read Army AL&T Magazine on our website. We hope you find this edition both interesting and thought provoking.
