Public-Private Talent Exchange Experience Description

Assignment Title: Special Assistant to the Program Manager – Space Hardware Design, Development, Manufacture & Test programs

Start Date: January 2020

Assignment Length: 6 months

Assignment Location: Broomfield CO & Boulder CO

Host Organization: **Ball Aerospace – National Defense Business Unit**

Ball Aerospace pioneers discoveries that enable our customers to perform beyond expectation and protect what matters most.

As both a spacecraft and payload developer, we have a unique understanding of instrument integration and experience delivering end-to-end systems. Our mission systems expertise translates into a proven ability to fulfill the most challenging customer requirements.

Ball instruments, sensors and spacecraft lead the industry in performance and value. Our advanced data services turn information into knowledge for the defense and intelligence community, and our tactical systems support all branches of the U.S. Armed Forces with advanced C2ISR technologies.

Host Organization Mission: **Military Space Systems Directorate** – ideates, develops, manufactures and delivers space systems; from individual components through fully operational spacecraft & missions, for Department of Defense customers.

Assignment Description: Participants will join the program teams, of on-going spacecraft development & test programs, where they will be imbedded in the IPT structure in positions to gain insight into the program's internal operations. Participants will shadow Program Managers and Mission Area Leads, and will participate in (not just attend) key meetings and the programmatic decision making process. Participant can also expect exposure to our proposal development process, if such an activity happens to occur during the program period of performance. Dependent on the participant's experience, knowledge and desire, IPT placement is negotiable (e.g. participant can request shadow-placement anywhere along the spectrum from PM down to Responsible Engineer, to include Business Operations, Contracting, and other specifically assigned roles).

Desired Participant Competencies: Engineers (all Disciplines); Acquisition; Contracting; Finance; Active TS/SCI clearance.

Special Requirements and Information: Primary duty location is Broomfield Colorado, with frequent meetings/operations at our manufacturing & test facilities in Boulder Colorado (approx. 9 miles north).

Deloitte Talent Exchange Description

Talent Exchange Fellows assigned to Deloitte will be integrated into the US Government and Public Services (GPS) practice of Deloitte Consulting, LLP in Arlington, VA. In its US GPS practice, Deloitte develops solutions for federal, state, and local government's most complex challenges across Civilian, Defense, National Security, and Health Agencies. The applicants will have the full experience of "life at Deloitte," including the opportunity to participate in appropriate corporate-level planning and strategy sessions to gain an understanding of Deloitte's structure, culture, and business processes. In particular, the applicant will have access to and participate, as appropriate, in client engagement, business development, professional development, and leadership shadowing opportunities, gaining exposure and experience in Deloitte's world-class client service strategies. Outside of client service, applicants will have an opportunity to get involved in firm initiatives, specifically Deloitte's Military and Veteran engagement, which includes the Career Opportunity Redefinition & Exploration (CORE) Leadership Program. The applicants will gain insight into corporate strategy development, execution of business decisions and process, and product delivery with various Deloitte Partners, Managing Directors, and Principals, as well as other project leaders as determined.

The applicant will be based at Deloitte's Arlington, VA office with travel to other sites at the discretion of Deloitte.
