

## Department of Defense 2022 David Packard Excellence in Acquisition Award Nomination Instructions

**Please read this carefully before completing and submitting the nomination(s).**

**Background:** The David Packard Excellence in Acquisition Award recognizes organizations, groups, and teams who have demonstrated exemplary innovation and best acquisition practices that achieve acquisition excellence in the Department of Defense (DoD). It is the DoD's highest acquisition team award and was first awarded in 1996 in honor of David Packard, a Deputy Secretary during the Nixon Administration. This is a great opportunity to thank and recognize the best-of-the-best of DoD's outstanding acquisition teams. Additional information on the award is available at: <https://asc.army.mil/web/acquisition-awards/>.

**Eligibility:** All DoD organizations and teams are eligible for the Packard Award, except for Office of the Secretary of Defense (OSD) staff organizations. Neither contractors nor contractor employees may be listed as members of a team. The award period is July 1, 2021, through June 30, 2022. Achievements resulting from efforts starting before July 1, 2021, may be included, but the culmination of the achievement must be within the award period.

**Evaluation:** Nominations will be evaluated based on the quality and innovation of actions taken by acquisition teams, the exceptional nature of the challenges that were overcome, and significance of the improved outcomes. Teams should use the CCAR (Challenge-Context-Action-Result) model when completing the nomination narrative. Nominations should describe acquisition initiatives and tools used, actions taken and quantify improved results. Nomination best practices include describing how actions provide lessons that can be more broadly applied, and how accomplishments and outcomes advance meeting objectives of the National Defense Strategy. The following examples are not intended to be all-inclusive or prescriptive:

- Tailoring of requirements, resourcing, or acquisition processes to achieve streamlined delivery of goods or services
- Use of non-traditional suppliers, contracting methods, or technologies
- Innovation in prototyping and experimentation
- Tailoring and innovative use of acquisition pathways and authorities
- Improved software acquisition techniques and approaches

**Selection:** The Packard Award Selection Board is comprised of a chair, appointed by the Under Secretary of Defense for Acquisition and Sustainment (USD(A&S)), and membership is composed of up to ten Senior Executive Service members. The board evaluates nominations and provides recommended winners to the USD (A&S) for review and approval. Multiple teams may be selected to receive the award based on merit.
